

REHVA Annual Conference 2015 workshop session:

TRENDS OF INNOVATIVE SYSTEMS AND PRODUCTS FOR SMART BUILDINGS

07 May 2015

Radisson Blu Hotel Latvija, Elizabetes 55, Riga, Latvia

13:00 - 14:00	Sustainable cooling systems of the public buildings Arturs Lešinskis, Prof. Dr.sc.Ing., Riga Technical University
14:00 - 14:30	Use of indirect adiabatic cooling in the air handling units Martins Zvigurs, Board Member, Menerga Baltic Ltd.
14:30 - 15:00	Green data center cooling. Evaporative cooling in Latvian climate Uldis Strauts, Project manager and HVAC engineer, Menerga Baltic Ltd.
15:00 - 15:30	Indirect evaporative chillers in Latvia climate conditions Arturs Brahmanis, Dr.sc.ing. in field of heat, gas, water technologies, HVAC Project manager, Lafivents Ltd.
15:30 - 16:00	Coffee break & networking
16:00 - 16:50	Building management system impact on energy efficiency Andris Krumins, Dr.sc.Ing., Riga Technical University, Docent. Head of BMS department, Lafivents Ltd.
16:50 - 17:30	The servitization of the BMS market Christine Scheier, Channel Marketing Manager Alerton & Phoenix Controls EMEA
17:30 - 18:00	Latest BMS project experience in Latvian market Romualds Belinskis, Project Manager, Lafivents Ltd.
18:00 - 18:30	Discussions

Questions / discussions are welcome at the end of each presentation.
